Professional Profile:

To whom it may concern,

I'm an 18 year old software developer looking to begin a career in programming. I have over 4 years experience in coding languages such as Python, Javascript, CSS and html and I am currently learning C# and PHP. I've built a range of different projects from websites, to games, to phone applications and I am preparing to study a bachelor of computer science at UTS over the next 4 years.

Skills and Abilities:

- Can code fullstack
 - Can build and repair pc computers
 - Able to diagnose software problems
 - Able to design 2d video games
 - Familiar with design techniques in photoshop and similar apps
-

Education:

- Completed stage 5 I.S.T. (Information Software Technology)
 - Received a Higher School Certificate
 - Completed stage 6 I.T.M. (Industrial Technology and Multimedia)
 - Proceeding to study Computer Science at UTS
-

Hobbies and Interests:

In my spare time, when I'm not playing video games, I enjoy practicing my coding ability and seeing what I am capable of designing in certain time frames. I also enjoy photography, photo and video editing and reading.
